

BROUGHTON LUNT by Mary Amanda Mortenson

Broughton Lunt the second of his mothers family of eight boys was born in Cedar City, Utah April 5, 1881.

He was a trustworthy little boy helping his father and mother by bringing in the cows from the pasture, carrying in wood and coal for the fires and helping with younger children. His mother took charge of the hotel in Cedar City.

When six years old left with his parents and 3 brothers, Egerton, Parley and Edward Nov. 6, 1887 to go to Mexico.

Staid at Moccasin Springs for some time where a baby brother Heaton was born. They took a Southern route through Dixie, Toquerville, Virgin City, and up a canyon to North Creek where he saw pickled grapes the like of which he had never seen before or since.

As soon as it got warm enough when Heaton was 3 weeks old they resumed their journey, came down over Lees Back Bone, a very rugged and steep dangerous mountain. Crossed Lee's Ferry and down to Holbrook. The horses got stuck in the quick sand and they had a time to get them out. Went to Joseph City and Winslow then over to Snowflake and Pine Dale. Spending the winter there so the older boys could go to school. Broughton walked 1 1/2 miles sometimes thru snow holding to the coat tails of his teacher. Here they bought 9 cows and calves, an old hen with 14 half grown chicks.

From Pine Dale they went to Showlo and McNarry, was then just a ranch, then on down through Apache to Pima. A number of families joined them at Pima in route to Mexico, Warner Porter, Chris Heaton, and John Walser.

Reaching Deming, New Mexico, father Lunt bought 2 stoves, the first they had since leaving Cedar. From Deming to Colonia Diaz then the 1st of the year on up to Pacheco Jan. 21, 1890. His father was nearly blind most of his life in Mexico. His older bro. worked away from home, so it was up to Broughton to help his mother with the responsibility of the family. He attended Juarez Stake Academy a part of one year.

In 1897 Sarah Lunt and her boys bought the Spencer farm at Corrales. After living in this frame home for about 2 years it burned down. They went to work to build a new home. Helped make brick, worked on the saw mill for lumber and hired an 18 year old boy to lay the brick, Broughton helped the carpenter. It was a two story brick home with 8 rooms with a pantry and 2 porches.

"Sarah's home in Mexico. Old trapper that always stopped to see us there at Mother's-Steegle-Made the best meat jerky.

Frank Gesiago-the Mexican boy that Mother Lunt raised."

He first met Mary Mortenson a time or two who was attending school at the Juarez Stake Academy in 1905 and 1906. In the summer of 1906 after finishing school she came up to Pacheco where her family had moved to.

Broughton worked at Madero, they corresponded during the summer and she taught school that winter 1907 and 1908. About Christmas they were engaged and left in March to Salt Lake where they were married 2 April 1908 in Salt Lake Temple. Attended General Conference, it was inspiring. Got our license at court house and were married by John R. Winder for time and eternity. That evening Broughton's sister Jane had a nice meal for us, as many relatives as were living in Salt Lake, Violet Urie and husband and another sister and others.

2 Broughton Lunt

After 3 weeks in S.I. went to Nephi where Broughton's mother lived. His grandfather was 93 years old. He introduced us to the families, and while walking around with him, we were walking slow so as not to tire him-he turned and asked, "am I going too fast for you folks?" From there we went to Cedar City, we staid with Henry Lunt and aunt Rose Broughton's brother and family. Visited aunt Rose Nagle Lunt and uncle Will Lunt. Uncle Randall and his sister Florence and she sang and played "O My Father" and "The Last Rose of summer" for us, Aunt Heneretta Jones another sister and others. Went to Parawan, aunt Mary Ann going with us in Uncle Henrys buggy. After 2 weeks we left for home in Mexico.

How happy we were, B. was counselor in S.S. and ward teacher. On the 11 March, 1909 Kenneth our first baby was born, we lived with mother Lunt. Broughton helped on the farm and helped with the cattle.

In 1910 in the fall Broughton went on a mission to Mexico. We left Mexico when the people were ordered out in 1912. Next spring Broughton came from his mission, no home, no money. Broughton first worked for \$1.50 a day then \$3.00.

Broughton was ward clerk under Bro. Hurst, a S.S. teacher and ward teacher. In El Paso from 1913 to 1916. Two boys came to bless our home, Olas 30 Nov. 1913 and Henry Rudd, 29 Dec. 1915.

19 March 1914 Broughton began working as a carpenter at G.H. Shops repairing locomotives mostly, received 31¢ per hour. 9 hours per day. We were happy now with the steady work. He walked or rode a bicycle. March 10, 1914 had just 8 hours per day. July 7 quit and went to work on a theater 10 weeks. Then for a Mr. Petty. 16 Nov. took very ill. Sent to Hotel Dev. appendic operation Came home 30 Nov.

Mary went to her folks in Elfrida and Broughton staid with his mother from last of July until 5 Oct. 1914. Mary came back and moved in part of the house Heaton and Chloe lived in, they had lost their baby Seth. Mother Lunt went to Newman St. When Parleys wife took sick she went and staid with Parley. Chloe and Heaton took care of her boys and Alden Stevens came and lived in their part of the house.

Broughton got a gov. job up at Mosquite on the canal and diversion dam, \$4.00 a day. 12 May he quit and worked on county court house in El Paso. Here he got \$5.00 per day.

Broughton came over and looked at this country (Duncan, Arizona in the Gila River Valley) and on Nov. 20, 1916 we left El Paso for Duncan. The children and I came first by train. Uncle Ed met us at the depot and took us to their home until Broughton came. After we lived in one of their rooms until 10 of May Broughton had built 2 rooms on our farm. My it was a palace to Mary. Broughton did all the work on the house.

"Rudd holding colt
Old Dime. Mary's
buggy in the back-
ground."

This is the house
looking down from the
road between Grandma's
and Aunt Ethel's by
Grandma's mail box
and the grape arbor.
The trees in the back-
ground are the ones
in the riverbed.
Those two rooms are
the bedrooms as we
know them now.

They belonged to Virden Watd until 1939. He was a counselor to Bro. Moffett in S.S. Supt. Orson Merrill other counselor. Quote from diary, "IN Oct. 1917 my bro. Owen was drafted into the service of the U.S. Went to Kansas and then to Camp Kerney, Cal where he became carpenter serg."

During Oct. influena was raging claiming lots of people. Broughton's bro. Edgerton died in Col. Dublin Nov. 9, 1918. He was 39 years old, leaving a wife and 3 children. We had saved \$1700 dollars in El Paso. We bought 40 acres of land \$6,800, paying our tenth each year, 8 per cent interest. We made it. Mother Lunt went back to Mexico 1915, took care of the Ivins home until 1918. They, she and Alma and Clarence went back to Pacheco.

3 Broughton Lunt by Mary A. Mortenson

1918 we had a severe drought, from B's diary. "The Lord was kind to us and sent us water every time we went before him in fasting and prayer in a very remarkable way by making small floods in the river." In Aug. 9, 1923 we had our first flood down Carlile filling ditches with sand and destroying crops. In 1921 Dec. 27 Mother Lunt passed away down in Colonia Pacheco. Broughton, Edward, Clarence, Alma, Chloe and Laveta were with her at her passing. Broughton made her casket and the others trimmed it.

During world war one when it looked like we couldn't make our land payments, Broughton went to Deming as barracks were being put in by gov. He got carpenter work, Mary and little boys kept the home fires burning. We afterwards bought 12 Acres of Bro. Moffett.

In the 1928 year we had a terrible depression but on Dec. 1928 we paid off all our notes, we thanked the Lord again and again. Broughton sold Heaton 20 acres and when he bought the place where they later lived he sold the 20 to Owen, then Broughton later bought it back.

Kenneth had had 2 years of junior college and wanted to go on a mission, so on Oct. 9, 1929 he left for Great Britian or England, the Lord opened up the way so we sent him \$50.00 a month. He came home in Jan. 1932. While in England he met one of his grandfather's brothers daughters, Johns' Mrs. Heatly and was invited to their home.

In the fall of 1933 Olas our second son got a mission call to The Central States, we surely had a time to get the money, but the Lord never failed us, when he had been out 2 years, his president wrote and asked if he could stay 6 more months so he did.

During the summer of 1918 just after dark our baby boy Rudd about 3, went out where his father was cutting grain, and his father didn't see him until he dropped on the mowing machine, he thought he had cut off both legs, we took him to a Mrs. Keeler who was a Dr. and she sewed it up. It cut the bone and cords, he limps but it got well with no infection through the prayers of us all.

Feb. 8, 1919 another son came to our home and the night before a cousin was born to Heaton and Chloe Lunt. We named him Elno James and he is our tallest son, 6ft 3.

14 June, 1921 our fifth son was born, we named him Irl. He at birth was the smallest of our boys but he is 6ft now.

Nov. 15, 1923 our 6th son Elvin M. was born.

Rudd, our 3rd son got a call to go on a mission to Argentina. Oct. 17, 1936 he attended conference and school but as the boat and missionaries were not going for a few weeks he came home. And we took him again to Lordsburg Nov. 24 and put him on the train to New Orleans. Then on the boat S.S. Del Norte, was 32 days on the water to Buenas Aires. We got our first letter Jan. 7, 1937. He had Christmas with pres. Earnest Young and family, who was one of his father's missionary companions.

Oct. 8, 1938 Mary went to Douglas with Veo Jones and Elno. While there Elno received a call to go to Sweeden on a mission. We were happy for that is where Mary's mother was born. He sailed on ship. After one year in Sweeden on account of war, he finished his mission in Southern States.

When Heaton lived close he and Broughton worked together many happy days. Our last son was a still born, what a dissappointment.

Irl went on a mission also to the Central States. Just after the 1941 flood down the river. Elvin M. went on a mission to Denmark where Mary's father came from. He and Elno both got us some genealogy. Left home 13 Nov.

Elno during World War II went to Japan. Irl took training but didn't go into combat. Elvin was almost 3 years in U.S. Navy.

Broughton and Mary went to Rochester in 1945 in the fall he was operated on. It was a wonderful trip but he never recovered and in 1946, 2 July passed away.
